[Ticket purchase and activation](#)

On the train

Purchasing a ticket on the train

For the convenience of the Masovian Railways passengers, it is possible to purchase a ticket directly on the train. Any passenger who does not possess a valid ticket or who holds a ticket that has not been validated/activated, shall board the train using the first door (starting from the front of the train) and shall approach the person in charge of the train in order to purchase, validate or activate the ticket.

Cashless payment on a train

The Masovian Railways enable their passengers to pay cash-free with a payment card for tickets purchased from the train crew. The implemented solution greatly simplifies and reduces the time it takes to purchase a ticket, not only because there is no need to have cash on hand, but mostly because of the short time it takes to process the payment, especially when it is contactless.
