Personal long-term section tickets

Personal long-term section tickets are issued for journeys by trains of Koleje Mazowieckie at distances up to 200 km. The long-term ticket allows for an unlimited number of travels between all the stations within the section for which it was issued by the shortest route indicated on the ticket. The ticket is valid from the day of issuance or from a date indicated by the passenger with the 7-day period of advance sale. The section ticket may cover travelling "there" or "there and back". Before the first journey, the passenger is obliged to enter into appropriate spaces on the ticket his or hers name and surname and the series and number of an ID document with a photo in a manner that is comprehensible, permanent and non-removable. This is especially important as the ticket is only valid with such an ID document.

What is more, the ticket lacking all the data entered in a legible manner is considered invalid. The person entitled for the travels within the section is only the person whose data are entered on the ticket. Laminating the ticket or extending its validity period is forbidden.

Koleje Mazowieckie do not refund any lost, destroyed, laminated or stolen tickets and do not issue any duplicates of such tickets even if their loss is registered with the police.

The personal section tickets may be purchased at full price, or at trade discounts of: 33%, 35%, 37%, 49%, 50%, 51%, 78%, 93%.

Types of personal section tickets:

- 1) weekly;

- 2) bi-weekly;
- 3) monthly;
- 4) quarterly.

The validity period of a reduced-fare personal section ticket with a quarterly period of validity may not exceed the validity period of the document that entitles to a given transport discount.

The long-term personal section tickets may be purchased only electronically in the ticket booths and ticket machines (apart the quarterly tickets).
